PREFACE

This booklet is designed to help you better understand the world of financial aid. It is intended to familiarize you with the types of aid available, the application process and provide general information to help guide you through the process.

The remainder of this book focuses on award letters and scholarships. There is information on national scholarships search sites as well as local scholarships. The local scholarships will be advertised on our school website, in the student bulletin and the announcements as they become available.

Good luck with your quest for funds!
